

INDEX, Vol. 53

- α -glucosidase. An investigation of the properties and possible clinical significance of the lysosomal ... *GAA*2* allele, 177
- α -glucosidases. An investigation of the possible influence of neutral ... on the clinical heterogeneity of glycogenosis type II, 185
- acrocentric chromosomes. The nonrandom participation of human ... in Robertsonian translocations, 49
- Affara, N.
see Ballabio, A. *et al.*
- African. Mitochondrial DNA polymorphisms in Italy. III. Population data from Sicily: a possible quantitation of maternal ... ancestry, 193
- (AHCY). Isozyme and DNA analysis of human S-adenosyl-L-homocysteine hydrolase, 157
- alcohol flushers. Cytosolic aldehyde dehydrogenase (ALDH1) variants found in, 1
- aldehyde dehydrogenase. Cytosolic ... (ALDH1) variants found in alcohol flushers, 1
- Andrews, V.
see Morton, N. E.
- Andria, G.
see Ballabio, A. *et al.*
- Apulia (Southern Italy). Restriction fragment length polymorphism of human mitochondrial DNA in a sample population from, 311
- Arredondo-Vega, F. X., Charlton, J. A., Edwards, Y. H., Hopkinson, D. A. & Whitehouse, D. B.
Isozyme and DNA analysis of human S-adenosyl-L-homocysteine hydrolase (AHCY), 157
- Ashworth, A.
see Shephard, E. A. *et al.*, 291
- (β FNR). Assignment of the gene encoding the beta-subunit of the human fibronectin receptor ... to chromosome 10p11.2, 15
- Baker, L.
see Gogolin, K. J. *et al.*
- Ballabio, A., Carrozzo, R., Gil, A., Gillard, B., Affara, N., Ferguson-Smith, M. A., Fraser, N., Craig, I., Rocchi, M., Romeo, G. & Andria, G.
molecular characterization of human X/Y translocations suggests their aetiology through aberrant exchange between homologous sequences on Xp and Yq, 9
- Barale, R.
see Barrai, I. *et al.*
- Barrai, I., Formica, G., Barale, R. & Beretta, M.
isonymy and migration distance, 249
- Beretta, M.
see Barrai, I. *et al.*
- Berg, E. S., Teisberg, P. & Olaisen, B.
genetic analysis of C4 polymorphism by use of DNA amplification (PCR), allele-specific oligonucleotide probes and allele-specific restriction enzymes, 221
- Bigozzi, U.
see Papi, L. *et al.*
- binomial confidence intervals. Analysing rearrangement breakpoint distributions by means of, 375
- Board, P. G., Webb, G. C. & Coggan, M.
isolation of a cDNA clone and localization of the human glutathione S-transferase 3 genes to chromosome bands 11q13 and 12q13-14, 205
- Bouchard, C.
see Gélinas, Y. *et al.*
- breakpoint distributions. Analysing rearrangement ... by means of binomial confidence intervals, 375
- Brega, A.
see Semino, O. *et al.*
- Buckle, V. J.
see Searle, A. G. *et al.*
- C4 polymorphism. Genetic analysis of ... by use of DNA amplification (PCR), allele-specific oligonucleotide probes and allele-specific restriction enzymes, 221
- Cappellini, M. D.
see Fiorelli, G. *et al.*
- carcinoembryonic antigen. Assignment of the coding sequence for ... (CEA) and normal cross-reacting antigen (NCA) to human chromosome 19q13, 141
- Carrozzo, R.
see Ballabio, A. *et al.*
- cDNA clone. Isolation of a ... and localization of the human glutathione S-transferase 3 genes to chromosome bands 11q13 and 12q13-14, 205
- cDNA. Sequence of full length ... for human S-adenosylhomocysteine hydrolase, 169
- Charlton, J. A.
see Arredondo-Vega, F. X. *et al.*
- chromosome 7q11.2. Isolation of a human cytochrome P-450 reductase cDNA clone and localization of the corresponding gene to, 291
- chromosome 10p11.2. Assignment of the gene encoding the beta-subunit of the human fibronectin receptor (β FNR) to, 15
- chromosome 11, human. Regional localization of the sperm-specific lactate dehydrogenase, LDHC, gene on, 215
- chromosome 19q13. human. Assignment of the coding sequence for carcinoembryonic antigen (CEA) and normal cross-reacting antigen (NCA) to, 141
- chromosome banding. How much difference does ... make? Adjustments in prevalence and mutation rates of human structural cytogenetic abnormalities, 237
- chromosome bands 9q33-34. Localization of the Surfeit gene cluster containing the ribosomal protein gene L7a to, 149
- chromosome bands 11q13 and 12q13-14. Isolation of a cDNA clone and localization of the human glutathione S-transferase 3 genes to, 205

- chromosome maps of man and mouse, IV, 89
- Coggan, M.
see Board, P. G. *et al.*
- Coulter-Karis, D. E. & Hershfield, M. S.
sequence of full length cDNA for human S-adenosylhomocysteine hydrolase, 169
- Cowell, J.
see Edwards, Y. *et al.*
- Craig, I.
see Ballabio, A. *et al.*
- Craig, I. W.
see Willcocks, T. C. *et al.*
- Craig, S. P.
see Willcocks, T. C. *et al.*
- cytochrome P450IIC. Cloning, expression and chromosomal localization of a member of the human ... gene sub-family, 23
- cytochrome P-450 reductase. Isolation of a human ... cDNA clone and localization of the corresponding gene to chromosome 7q11.2, 291
- cytosolic aldehyde dehydrogenase (ALDH1) variants found in alcohol flushers, 1
- Davé, V.
see Yoshida, A. *et al.*
